NEXTLABS | Zero Trust Data-Centric Security

Securing Microsoft Ecosystems

Set the standard for safeguarding data across all ecosystems

NEXTLABS | Zero Trust Data-Centric Security

NextLabs® patented dynamic authorization technology and industry leading attribute-based zero trust policy platform helps enterprises identify and protect sensitive data, monitor and control access to the data, and prevent regulatory violations – whether in the cloud or on premises

Safeguard Information Sharing and Enable Secure Collaboration

NextLabs empowers organizations to boost collaboration and productivity while securing business transactions across the entire Microsoft ecosystem. Our advanced solution offers data masking and filtering capabilities to safeguard sensitive sales, marketing, and service. Regardless of the Microsoft server, device, or desktop, NextLabs discovers, classifies, and protects data for secure sharing.

Across all collaboration methods —portals, emails, forums, or cloud —NextLabs ensures frictionless, data-centric security (DCS). Our solution controls access to sensitive files, prevents unauthorized email and attachment transmissions, and secures discussions on platforms like Skype and Teams. Additionally, we provide comprehensive protection for your critical assets by securing global data access across all major Microsoft databases in the cloud.

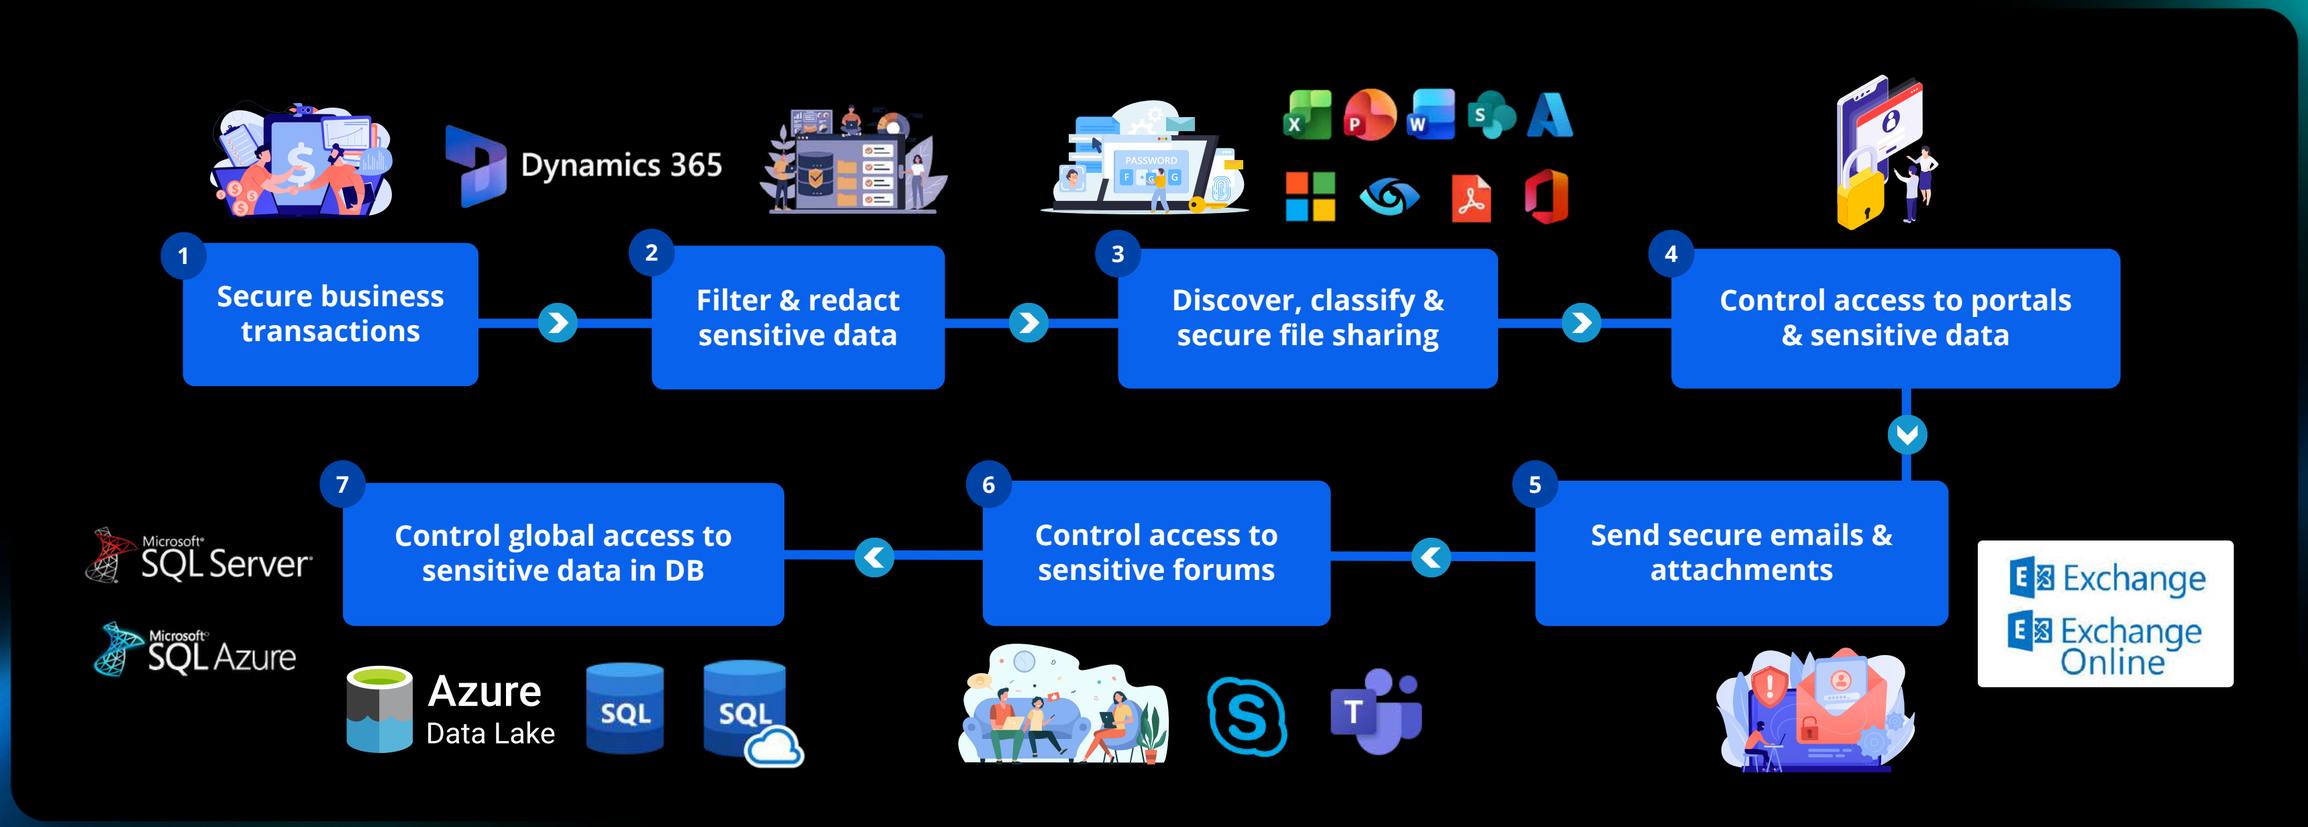
Safeguarding:

- AI & Analytics
- Cloud
- Enterprise App
- Unstructured Data

With Key Data Security Controls:

- Fine-Grained Access Controls
- Data Masking
- Data Segregation
- Data Scrambling
- Data Obfuscation at Rest
- Entitlement Management
- Data Tagging
- Segregation of Duty
- Data Extraction
- Digital Rights Management

Zero Trust Data Security for Microsoft



Microsoft Gold Partner

NextLabs integrates with SharePoint, Office Suite and Office 365 to enhance data security and prevent inadvertent misuse of sensitive information.
